WHAT IS ZODVERSE?

WHITEPAPER

The gaming industry is witnessing a paradigm shift with the rise of blockchain technology and NFTs. Zodiverse enters this landscape with a unique proposition—leveraging the timeless appeal of astrology to create an engaging gaming experience powered by decentralized finance. By integrating NFTs into our zodiac-themed trading card game, we provide players with the ability to explore the cosmos, forge powerful bonds between characters, and participate in a dynamic marketplace where rarity and strategy reign supreme.

GAMEPLAY

We offer a comprehensive solution of introducing a diverse range of NFTs representing the 12 zodiac signs, both male and female. Players can collect, trade, and combine these characters to unlock unique abilities and enhance their gameplay experience. By utilizing blockchain technology, we ensure transparency, security, and true ownership of in-game assets, empowering players to build and monetize their digital collections.

TECHNICAL ARCHITECTURE

Initially there will be 420 NFTs, with metadata containing detailed attributes and characteristics of each character.
